

## LearningExpress Library™ Quick Start Guide

At LearningExpress, our mission is to help students and adult learners improve the skills required for academic and career success. Our LearningExpress Library™ platform provides the most comprehensive selection of educational resources—including more than 1,000 tutorials, practice exams, and eBooks—for basic skills mastery, academic success, job preparation, and career advancement.

### *Access to LearningExpress Library™*

LearningExpress Library™ is an online resource accessible from your library's website.

You may browse the site before registering, but once you locate a resource you'd like to use, you will be prompted to register before you can access it. Registration also enables you to store any tests, eBooks, and tutorials for future use.

To register from a computer in your library, simply click the "Sign In/Register" button on the upper right side of the library homepage or the homepage of any center. Click the "Register" button to register as a new user, verify your institution and enter your information in the required fields, and then click "Register."

If you are on a computer outside of your library's network (at home), you must register as a *New User* from the custom, authenticated LearningExpress Library™ link on your library's website. Failure to do so will result in a registration error message.

For future visits to the site, simply log in as a *Returning User* with your email address and the password you created at registration.

### *Site Navigation*

On the landing page, you'll find prominent icons for our core content areas—we call them centers. Our centers house all of our tutorials, practice exams, and eBooks. They are organized by areas of interest. Simply click the icon of a center that interests you.

Once you select a center of interest, you'll be presented with a series of menu options—select the option that best meets your needs to quickly get to the relevant products and resources.

## *Need Help?*

The Help tab, located in the blue horizontal navigation bar on any page of the site, provides useful information including Frequently Asked Questions (FAQs), Registration, and System Requirements.

The Video Guides feature helpful videos covering registration, navigation, searching, how to access resources, and more.
